AGENCY NOTICE.

Mr. L. P. Fisher is our only authorized Agent in San Francisco to receive Advertisements, receipt for the same, and to transact business generally for the MARIPOSA GAZETTE Office, No. 171½, Washington street, nearly opposite McGuire's Opera House.

Delinquent List.

A work under the above title has just been issued from our press. It is from the able pen of Sheriff CRIPPEN, and treats in a masterly manner of the financial condition of this county. The plot of the story is perhaps excelled by some of the sensation novels of the day, but in *description* it has no superiors. Our readers are generally recommenned to peruse it attentively. It will be complete in three numbers of the GAZETTE.

Political.

We lay before our readers to day the latest Political items which have come to hand. It is condensed in as small space as possible, for two reasons:—First, because the colums of the GAZETTE are crowded with an overgrown Delinquent Tax List, and secondly, we don't like the complexion of it; and "a little goes a great ways." Enough is known to insure the election of "Old Abe" Lincoln, and to establish the fact that the Government will be conducted under the administration and leadership of Republicanism for the next four years, with what results is a problem for time to solve. If an aggressive policy toward the South and her institutions is pursued, as is shadowed forth in the platform, as well as by the avowed leaders and organs of the party, there may be trouble, but it is time enough to meet it when it comes. Extremists and alarmists already prate loudly of a dissolution. Allowance must be made for politicians smarting under the sting of defeat. We can hardly imagine a state of affairs within the bounds of reason or probability which would call for any such rash measures. The President goes into office sworn to support the Constitution of the United States, under which the life, liberty, or property of no citizen can be taken away without due process of law. Under this restriction, and with an opposition Majority in Congress, what power for harm has even a Republican President. If he commit any act in violation of his oath of office, there is a tribunal to which he is amenable—a remedy which will reach even the highest official in the land; besides there is a community of interest among the people of all sections of the Union; and a conservative feeling which lies deeper than the noisy waves of political strife, and which will say to the storm whenever and wherever it may arise—"Peace, be still." Politicians in the heat of warfare sometimes get wrong, but the mass of the people are right, and will correct abuses at the ballot box. Least of all will they permit the ruin of our glorious confederacy on account of the mere temporary success of a political party whose doctrines are erroneous and impracticable.

Good-by.--What hallowed memories cluster around that parting word, Good by. It falls tremblingly from the lips of the aged mother, as she presses for the last time the hand of her son. Good by—floats in softened cadence from the dimpled mouth of beauty, as she murmurs it "low and sweet" in the lover's ear. Good by—whispers the sister, as she breathes a prayer for the brother's welfare. Good-by—rings in the clear manly tones of friendship, and the honest grasp of the hand speaks more than words can tell.

"Good by," screamed a John Chinawoman, as the stage whirled past celestial a laundry, bearing the manly form of an editor and his baggage, (a valise and two bottles of cocktails). A full grown tear rolled from her almond eye, and her voice was checked with sobs as she murmured "he owe me one dollar-hap." Reader, that's all.

The war of extermination against the canine race has been changed to the worrying system.—Strychnine dispenced with, and tin cans and turpentine substituted. Fixing a can to the caudal appendage of a "dorg," so that it will *stay* is reckoned an accomplishment. This change of tactics will probably affect the "sassenger" market.

"Gone hum to his Marm."--Mr. ALBERT E. WALES, better known as "the Prince," has left the shores of Yankee land, and *a la* Douglas, has "gone to see his mammy." He carries with him his baggage, the Duke of Newcastle, and the recollection of a thousand and one acts of toadyism performed by the great American people. How his mother will "larf" when he tells her all about his adventures.

There was a man in Illinois,
His name was A-bra ham,
He maul ed rails in former times,
And in 1860 run for President, against Breckinridge, Bell, and Douglas, and beat 'em all just like a d—n.

The Visalia Delta of the 17th comes to us in mourning, in consequence of the unfortunate and sudden death of Mr. SHANNON, the former editor and and proprietor. Mr. Shannon was a native of Ohio, and has been for several years engaged as a public journalist in California. He was formerly editor and proprietor of the Calaveras *Chronicle*. In accordance with his expressed wish, the publication of the *Delta* will be continued, under the editorial management of L. O. STEARNS, Esq.

"One eyed Kelly," an old convict who paid Mariposa a visit, saveral months since, and was an occupant of one of our county Jail apartments, has turned up in Sacramento. He has got a situation in the chain gang.

The Shasta *Courier* under the head of, "We have met the the enemy and we are his'n," places an inverted cut of an ancient rooster, and then "goes on to state" that the bird isn't in a condition to *crow*, and that we the Democracy, are shockingly whipped, and "sarve us right."

Gregory, of the firm of GREGORY & BACHMAN of the Arcade Saloon, has sold out his interest in the establishment to W. T. ARBERRY, familiarly known as "Tex," who will hereafter grace the office of "mixologer of tipplearies." Gregory goes to the Legislature this winter where he and his Breckinridge compeers will bear about the same relation to the Republicans and Douglasites, as a squirt of Stoughton bitters does to a "cock tail." Just about enough to flavor the draught.

A venerable gentleman in Boston, recently, in attempting to pass a lady on the sidewalk, caught a foot in her hooped skirt and fell, breaking his arm.

A gentleman from Italy came in to our office a few days since, and showed us his *sore leg*. He mumbled over something in a "furrin" tongue which might have been a short prayer, an extract from one of Douglas' speeches, or a petition for four bits. These beggars are getting too numerous. A large proportion of them are able to work, but lack the disposition, and are too cowardly to steal.

Accounts from the middle and northern mining districts represent that great damages have been sustained recently by the severe gales. Flumes blown down, and other property upset.

The readers of the GAZETTE will please excuse a lack of editorial, and news items this week. A delinquent editor and tax list, are the principal causes.

A Squatter fight occurred near the Mission at San Francisco on the 20th inst. Several shots were fired and nobody hurt. D. W. Perley was one of the party. The public may remember that he had some trouble several months since, about *squatting on another man's claim*.

Suicide.--A dispatch to the *Republican* of the 21st, announces that Richard McGill committed suicide in Sacramento, on the evening of the 20th, by by shooting himself in the head with a Derringer.

J. B. Condon, Treasurer of Mariposa county, left last week for Sacramento, with a little over $12,000 in State Funds, received during the last three months.

Atlantic Items---by Pony.

The Pony Express with St. Louis dates to November 10th, arrived at Fort Churchill on the 23d inst. From the *Alta's* general dispatch we clip the following:

There is not much additional election news..... **Maryland** has gone for Breckinridge by a small plurality...... **Virginia** is still in doubt.. ... **There** is nothing furrher from Georgia .... **Bell** has probably carried Tennessee, though it is still doubtful..... **Kentucky** is certain for Bell..... **The** Montgomery mail of to day claims Alabama for Breckinridge by ten thousand..... **From** Louisiana we have few returns. Bell is a little ahead, though the State is supposed to have gone for Breckinridge ... **There** is nothing from Texas or Florida..... **In Arkansas** Breckinridge is ahead. He has undoubtedly carried the State..... **South Carolina** has elected Breckinridge electors..... **North Carolina** has gone for Breckinridge..... The Fusion majority in New Jersey is not known..... **Missouri** is so close between Bell and Douglas that it is impossible to tell who has the State. The chances are now favorable to Bell..... **The** Republicans gain one Congressman in Wisconsin, and one in Michigan..... **Pennington** is certainly defeated in New Jersey, and Fisher elected in Delaware.... **The** Illinois delegation is unchanged. The Republicans have eleven majority on joint ballot in the Illinois Legislature.

LATER.

Further telegraphic news shows that Breckinridge has a plurality of 300 in Maryland, and 3,000 in Georgia.... **Mississippi** has gone for Breckinridge by a large majority.... **Virginia** has also gone for Breckinridge by a small vote.... **Bell** has carried Tennessee by 2,000, and is still ahead in Missouri.... **Illinois** has gone for Lincoln by 15,000 majority.

Secession Movements.

ST LOUIS, Nov. 9th.

South Carolina is getting up a fever for secession, but has the game entirely to herself. No other State has countenanced the movement, up to the present time, but South Carolina is trying by her vehemence to make up for the gravity of the other Southern States. The Judges of the U. S. District Court, the District Attorney, and the Collector of the Port of Charleston, have all resigned. They do not wish to recognize the General Government another day. A large body of the citizens of Charleston called, last night upon the resigned Federal officials, who made secession speeches, and were warmly applauded. In the Lower House of the Legislature, a secession speech, made by Edward Ruffin, was rapturously applauded. It is rumored that the Secessionists have seized Fort Moultrie, at the mouth of Charleston harbor, but the rumor is not credited.—A telegram, received to-day, says a State Convention will be called to meet on the 17th December, to provide for the secession. The barque *James Gray*, lying in Charleston harbor, had hoisted the Palmetto flag, and saluted it with 15 guns. The Speaker of the Lower House received a telegram from Virginia, tendering to South Carolina the services of a volunteer military company in case she should secede... **It is** reported that President Buchanan has expressed his intention to use the military force of the Union to resist nullification, but he will not resist secession. ....**A telegraph** from Richmond, Va., states that there is no excitement there. The old Whigs are satisfied with the result and will use their influence against secession.

ST LOUIS, November 12—9 A. M.

The Secession movement has taken hold in Georgia. Toombs, United States Senator from Georgia, has resigned. A resolution to elect a successor was laid on the table on the 9th. A bill was introduced to tax articles manufactured in Massachusetts. Another bill was introduced to prevent citizens of offending States from bringing suits in the Courts of Georgia. The Legislature adjourned until to day.—On Saturday a public meeting was held in Augusta, Georgia, with the Mayor presiding. Resolutions were passed favorable to law and order, and against the expulsion of the citizens of Northern States without a hearing. On the same evening a violent secession meeting was held. Furious speeches were made. A delegation was appointed to a State Convention to meet at Montgomery. At Milledgeville, on Saturday, the military companies, fully equipped, offered their services to the Governor to serve in the secession army.... **Nine-tenths** of the people in Alabama are in favor of disunion, though the citizens of Mobile, the chief port and city of the State, are in favor of the Union. The Governor, all the high Executive and Judicial officers, and all the Congressmen, save one, are for secession. An immediate State Convention, to provide for secession, has been resolved upon Minute men are to be organized.... **In New Orleans**, movements are being made to obtain an extra Session of the Legislature.

In the South Carolina Legislature, on the 10th inst., the Speaker announced the resignation of Senator Chesnut. A member offered a resolution that the resignation be accepted as an act of loyalty to the State. The Committee on Federal Relations reported a bill to call a Secession Convention in December, instead of January. it passed both houses unanimously. A bill is now before the Legislature to authorize the Governor to call out 10,000 volunteers.

....**An attempt**, in Philadelphia, to organize the Republican Clubs of the city into military companies, to support Lincoln in the Presidential chair, had been defeated. Resolutions were passed declaring good will to all sections of the country. One Ward Club tendered its services at the inauguration to oppose Southern minute men

....**There has** been an immense run on the Charleston Banks for specie. A bill was passed to protect them.

The Banner Precinct.--Spring Creek precinct in this county cast thirty nine votes, and contributed $50 to the Washington Monument Fund. If any other precint in the State has beaten Spring Creek, we would like to know it.—*Shasta Courier.*

Spring Creek did very well for a cold water precinct, but Whisky Flat in our county, rather lies over it. There were twenty six votes polled and $60 contributed to the Monument Fund. "Hang out your banners," &c.

The Emigration by the Noble Pass.--During the season 54 wagons have come in over the Noble route; 270 persons—75 females and 195 males 113 horses and mules, 1700 head of cattle, and 2,500 sheep.—*Shasta Courier.*

The Nigger in the Fence.--Fourteen thousand negroes voted the Black Republican ticket in Ohio at the late election, under the decision of Judge Brinkerhoff. This will account for the majority there, which is not large for Ohio. So says the Union *Democrat.*

Irrepressible Desires.--We have an irrepressible desire to exchange congratulations with the man who honestly said that Bell and Everett would "carry this State.—*Calaveras Chronicle.* (Breck.)

We have an irrepressible desire to exchange congratulations with the man who honestly said that Breckinridge and Lane would "carry this State."—*Butte Record.* (Doug.)

We have an irrepressible desire to exchange congratulation with the man who honestly said that Douglas and Johnson would "carry this State."—*S. F. Times.* (Lin.)

We exchange congratulations with those people above mentioned, every day, besides taking a great deal of "sass" from jubilant Repubs, and now have an "irrepressible desire" to shake hands with the smart fellow who never was mistaken in his political calculations.

Official vote for State Senator, 6th District:

	Mariposa.	Merced.	Fresno.	Tulare.	Total.
Merritt, (R.)	900	250	298	683	2,131.
Burkhalter (D.)	516	64	31	322	933.
Daly, (B. & E.)	370	35	99	310	814.
					3,878

Merritt's plurality over Burckhalter is 1,198; over Daly, 1317. Majority over both, 384.

Toombs, of Georgia has resigned his seat.—"Hark from the *Toombs* a doleful sound. **Chesnut**, of South Carolina has also dodged and gone home, fearing that his timber might be *mauled into rails* by "Old Abe."

The Evening Mirror, an excellent daily, by the way, has recently been enlarged and otherwise typographically improved.

The California Culturist for November contains a choice variety of reading matter. It is a valuable monthly, and should be in the hands of every farmer, gardener, and stock raiser in the State.

Thursday next, in accordance with the Proclamation of Gov. Downey, will be observed throughout California as a day of Thanksgiving.

District Court.--The November term of the District Court for Mariposa County will conclude sometime this week. We are unable, as yet to give a summary of the proceedings.

The Stationery House of A. L. Bancroft & Co., San Francisco.

It matters little what occupation one has—so there be an occupation—but it matters everything how it is prosecuted. Take some one thing, put forth all your energies upon that, and elevate yourself by elevating your calling. We care not, whether it is blacking boots or keeping a bank, when we see a man steadily pursuing some one laudible object, surmounting all obstacles, never deviating from the strictest principles of integrity, regardless of the contemptible tricks of his enemies in their vain endeavors to pull him down—in whatsoever sphere in life we find that man, we take him by the hand, call him brother, and bid him God speed.

The customers of a well conducted mercantile house, reap a direct benefit from the good conduct of that house. If the house have capital, credit and standing, all are employed for the advantage of the customer.

A. L. Bancroft & Co. certainly did not aspire above their ability to perform, when they collected Paper, Envelopes, Blank Books, Pens, Ink, Pencils, &c., embodying all under the term stationery, and laying their foundation broad and deep, entered upon this as the great business of their lives.

Possessing, in a eminent degree, all the advantages enumerated above, added to which, a thorough knowledge of their business, and a determination to give those who patronize them entire satisfaction, the principles upon which they build are sure, success is certain—and as we can never remain indifferent to the calls of true merit, perseverance and obliging manners, we earnestly recommend the House of A. L. Bancroft & Co. to the attention of our community.

Their fine Stock, selected with great care from English, French, German and American Manufactories, is well represented in the neat establishment of our friends GREGORY & ETLY.

PRACTICAL EXPERIENCE

BETTER THAN

EXPERIMENTAL SCIENCE.

HOLLOWAY'S OINTMENT.

CONSOLATION FOR THE SUFFERING.

Nealy fifty years continual use in every part of the habitable globe, among the savage and the civilized alike, has proved that simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abscesses, cancers, old wounds, and, in one word, every species of inflamation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested and permanently cured, without danger, by rubbing in and using as a dressing, this inestimable Ointment.

Scrofula, Erysipelas, & Salt Rheum.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvey, Sore Heads, Scrofula or Erysipelas, can long withstand its influence.

Bad Legs, Old Sores, and Ulcers

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood or chronic disease, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healthy qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Rheumatism,	Sores of all kinds,
Burns,	Ringworm,	Sprains,
Chapped hands,	Salt Rheum,	Stiff Joints,
Chilblains,	Scalds,	Tetter,
Fistula,	Skin Diseases,	Ulcers,
Gout,	Swelled Glands,	Venerial Sores,
Lumbago,	Sore Legs,	Wounds of all kinds.
Mercurial Eruptions,	Sore Breasts,	
Piles,	Sore Heads,	
	Sore Throats,	

☞Caution!—None are genuine unless the words "*Holloway, New York and London,*" are discernible as a *Water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*** Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in pots, at 25 cents, 63 cents, and $1 each.

☞There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot. dec20

P cific Ear Infirmary!

Important to the Deaf & Deaf Dumb!

DR. PILKINGTON,

Late Proprietor of the Institution for the Deaf at St. Louis, Missouri, and Chicago, Illinois,

HAS arrived and may be consulted at the corner of Montgomery and California streets, (Express Building, up stairs) San Francisco. Early attention is desired.

Deafness, Dizziness, Ear Ache, Catarrh, Noise in the Head, and all discharges from the Ear, Mouth or Nostrils.

ENTIRELY REMOVED.

A number of years of unremitting attention to diseases of the Ear as a speciality has enabled him to make many improvements in all that has heretofore known of Aural Medicine and Surgery and to insure such a degree of success as seems almost incredible. A great number of certificates and testimonials can be seen at his office, from many well known citizens in different parts of the Union.—From the afflicted at a distance, a letter of inquiry enclosing a stamp to prepay answer, will receive immediate attention. The Eyes! The Eyes!

DR. E. H. PARDEE.

OCULIST—after a protracted blindness of more than five years, DR. PARDEE has made himself thoroughly and scientifically acquainted with all diseases of the Eye, and has now been in practice eight years in San Francisco with a success that cannot be surpassed in any part of the United States; and for proof of this he will substantiate by cases that have been cured by him after having exhausted the skill of all the eminent Oculists in the cities of Boston, Philadelphia and New York. Dr. P. wholly objects to the use of caustic, blue stone—keeping the patient in a dark room, dieting, blistering, cupping—the blue pill at night and salts in the morning, etc., etc. DR. PARDEE has also been remarkably successful in the treatment of Rheumatism, Neuralgia, and all pains about the head; and the frequent calls that he has for his Rheumatic mixture from all parts of this coast, with the many testimonials, is positive proof of its efficacy; and to prevent answering many inquiries by letter, he will state that it can be sent to any part of the State or coast, and each bottle will be accompanied with full directions and a receipt for a liniment, magical in its effects over pain, ingredients of which can be procured any where—price, $10. The ARTIFICIAL EYES inserted by Dr. P. have all the natural movements of the real eye, and cannot be detected even by close inspection. Address
